

## In-Line Cabinet Workstation Configurations

An in-line row consists of a "Starter" station, followed by any number of "Intermediate" stations.

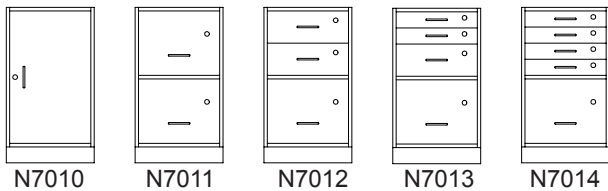

Standard sizes for Starter and Intermediate stations are 24", 30" or 36" depths x 48", 60" or 72" lengths.

In-Line rows may consist of your choice of a Leg or Cabinet at starting, ending or intermediate positions.

Contact your Design Specialist for assistance in configuring your in-line workstation.
