

DIRECT DRIVE™ HEIGHT ADJUSTABLE WORKSTATION

The Workplace Direct Drive Workstation is the ideal ergonomic solution—especially when used by multiple personnel of varying heights.

Its unique design uses a high-torque motor directly driving a precision lift screw mechanism enclosed in each leg, offering superb maintenance-free reliability with no loss of position—even when power is off.

The Direct Drive Workstation is available in mobile, standalone, in-line, or corner configurations and accommodates the same wide variety of overtable and undertable accessories as Workplace's manually height adjustable workstations.

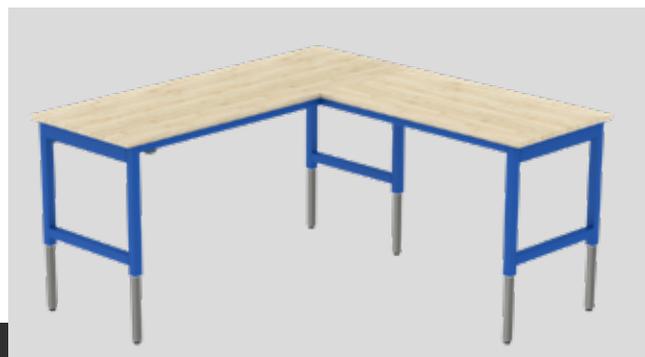

**ERGONOMIC MOTORIZED HEIGHT ADJUSTABILITY.
MULTIPLE CONFIGURATIONS. MASSIVE FLEXIBILITY.**

***MOBILE:** Standalone and in-line configurations benefit from a mobile solution. Just lower the table and move.*

***IN-LINE:** Create a long, gap-free workstation and add accessories both above and below the worksurface.*

***CORNER:** Available in right-hand or left-hand configurations in a variety of lengths.*

***SPECIALTY:** The Direct Drive Storage Unit keeps supplies, tools, and consumables in easy reach.*

DIRECT DRIVE™ HEIGHT ADJUSTABLE WORKSTATION

THE IDEAL ERGONOMIC SOLUTION FOR FACTORY OR LAB.
