

Pharmaceutical and chemical workstations are purposefully designed environments that cater to the specialized needs of laboratories engaged in drug development, chemical analysis, and related research activities.

Our adept design team comprehends the intricacies of your working environment, having collaborated with numerous prominent industrial, research, educational, and government facilities. We specialize in curating workstations that encompass the ideal combination of features, options, and accessories tailored to meet the unique demands of your tasks.

The Workplace[®] product line, known for its versatility, offers a myriad of layout possibilities, each meticulously crafted to fulfill specific requirements. These designs not only establish a robust foundation for a lifetime of reliable service but also boast adaptability, ensuring they can be easily retrofitted to accommodate evolving needs in the future.

Ready to get started? We Are.

Conceptual drawings, and detailed cost quotes are provided on a no-obligation basis. Visit our website or contact a Design Specialist today for more details.

Pharmaceutical Non-Controlled Returns| LD-052

Series 4500 Mobile tables have been customized with the addition of wing units in this bi-level configuration. Optional accessories include double Standard Uprights, light suspension system, flat screen articulating arm, document holder, and keyboard tray.

Chemical Supplier Packing Station| LD-059

Organization is paramount at this packing station application. A Series 4800 Packing Station was designed with a post-formed top, and includes a Model N3110 drawer case, powerstrip, pegboard, two spool holders, and an adjustable divider shelf on double Standard Uprights.

Hazard Materials Lab| LD-017

Series 5300 Quad work centers dominate this lab. Each provides a spacious work surface with contained storage space, overtable shelving and lighting, plus a convenient power source, all within arms reach. Keyboard tray, mounted beneath framework, completes the workcenter. Situated between the Quad units is a Series 4500 work table, fitted with double Standard Uprights, tool trolley, light fixture, spool holder, mounting rail with bins, powerstrip, and storage drawer.

Mobile Cabinet | LD-051

Perfect for almost any lab environment, the Series 7000 Mobile Cabinet moves easily to wherever it is needed at a moments notice. A large selection of cabinet sizes and drawer configurations make it possible to choose individual cabinets to suit the requirement. Mobile units are available in single, double, or triple cabinet units.

Chemical Repack | LD-060

Supplies and material are stored within the cabinet base of this Repack application. A powerstrip, pegboard panel mounted on double Standard Uprights, and an adjustable overtable divider shelf provide the options needed to make jobs more efficient.

Biochemical ID | LD-039

A 30"Dx60"L Series 7000 Mobile Station was the choice for an automated biochemical identification system. At the center is a keyboard tray with full-length wrist rest, and heavy-duty rubber corner protectors to protect the unit and surroundings during transit

Pharmaceutical Test Lab | LD-048

A need for considerable drawer storage was met with this L-Shape configuration. Adjustable shelves along both rows provide additional overtable storage, while powerstrips serve power requirements.
