

Mass Spectrometer Workstation Configurations

Construction Details

- ▶ Fully assembled, enclosed unit, designed to incorporate vacuum pump, dispensing tank or storage.
- ▶ Fabricated with 2"x2" square 18-gauge furniture grade steel tubing.
- ▶ Supports an excess of 1,000 Lbs of instrumentation and accessories.
- ▶ Durable phenolic resin worksurface is highly resistant to chemicals, moisture and bacteria.
- ▶ Standard 5" Total Lock Casters.

Design Features

- ▶ Sound-dampening foam enclosed vacuum pump with venting and dual fans for active cooling. Includes a heavy-duty pull-out tray:
 - Standard pump tray (31"Wx20.25"Dx23.375"H)
 - Large pump tray (46"Wx20.25"Dx23.375"H)
- ▶ Slide out tray for easy access to dispensing tanks.
- ▶ Storage drawers for supplies and pull-out writing shelf. Locks are optional; specify LK1 after model number.

*Optional accessories include computer caddy, floating arm for monitor and keyboard, specialized power strip, cord trough, and a bottle tray.
