

From beginning to end, every phase of the manufacturing process presents very stringent and specialized requirements, particularly when it comes to furnishings.

Our adept design team comprehends the intricacies of your working environment, having collaborated with numerous prominent industrial, research, educational, and government facilities. We specialize in curating workstations that encompass the ideal combination of features, options, and accessories tailored to meet the unique demands of your tasks.

The Workplace[®] product line, known for its versatility, offers a myriad of layout possibilities, each meticulously crafted to fulfill specific requirements. These designs not only establish a robust foundation for a lifetime of reliable service but also boast adaptability, ensuring they can be easily retrofitted to accommodate evolving needs in the future.

Ready to get started? We Are.

Conceptual drawings, and detailed cost quotes are provided on a no-obligation basis. Visit our website or contact a Design Specialist today for more details.

Shipping Station | MF-021

A Series 1000 Tubeframe table with a maple top is equipped with a footrest, light suspension system with light, overtable shelf with power, and articulating arm for monitor and keyboard.

International Shipping Area | MF-044

A Series 4500 mobile work table is the foundation of this shipping station. The 36"Dx84"L unit was configured with a worksurface featuring a T-mold edge surface. A full-depth undertable shelf provides additional storage capacity.

Shipping & Receiving Station | MF-046

A Series 7000 Technician Station in-line row was selected for this shipping and receiving application. The row's dimensions are 30"Dx144"L with a 36" work height. Overtable accessories specified are spool holders, adjustable overtable shelves with back and end stops, and light suspension systems. Identical multi-drawer cabinets flank each end of the row, while a cabinet with a hinged door (with adjustable inside shelf) is centrally located.

Packing Station | MF-047

The Series 4800 Packing Station is equipped with a post-formed Top, and storage dividers beneath the worksurface to help keep cartons in check. Overtable accessories help maintain organization and provide efficiency for this job function.

Large Packing Station | MF-048

Two 36"Dx72"L x 35/42" Adjustable Height Series 4500 Tables with Undertable Shelves are positioned back-to-back, providing a spacious worksurface for the packing of large items.

Packing Station | MF-049

Another version of the Series 4800 Packing Station, which uses different overtable accessories to meet the very specific needs of the packing operations performed.

Gift Station | MF-050

Designed to satisfy the needs of Internet retail, this gift-wrap station holds 5 rolls of wrapping paper and divider shelves for gift boxes. The Series 4500 Table measures 30"Dx60"Lx30/37" adjustable work height.

Receiving Unit | MF-051

An L-shape corner unit was designed to fulfill a requirement for returns processing. Cabinets provide needed storage space; 15-amp Power Strip delivers power; and Fixed Riser Shelf with Divider System handles documentation materials. This particular unit was specified as a 30"Dx72"L station with a 30"x60" wing, although several sizes are available.

Shipping Table | MF-052

Serving as a functional shipping table, a 30"Dx60"L Series 1000 Table is equipped with two adjustable overtable shelves, a divider shelf with 3 label holders, and a standard foot rest.

Shipping Unit | MF-053

A custom bi-level shipping unit for an electronics manufacturer. Full depth undertable shelf, keyboard tray, powerstrip, and adjustable overtable shelf complete this 30"Dx72"L unit.

Incoming Receiving Verification Center | MF-045

A Series 5300 Quad work center serves the needs of this verification center. Station is equipped with drawer storage, powerstrips, divider shelves, and undertable shelf, keyboard tray, and light suspension systems.

Packing & Shipping Station | MF-055

The Series 4800 Packing and Shipping Station helps put everything in its place with Undertable dividers and a large selection of optional accessories. Shown here with optional roll drawer case, double standard uprights, corkboard panel, paper roll mount, powerstrip, adjustable divider shelves, and label holders.

Final Inspection & Packaging | MF-056

A Series 1000 table provides a solid foundation for this dual-purpose work unit. An adjustable light suspension system, pegboard panel, and powerstrip are mounted to double standard uprights above the table, while a spacious understable shelf provides additional storage space below. Unit is equipped with an ESD top.

Shipping Station | MF-072

A Series 7200 Cabinet-to-Leg Technician Station is configured with a conductive top, Double Standard Uprights, and a Bubble-Wrap Mounting System which was designed and manufactured to meet this particular computer component manufacturer's requirement.

Packing Station | MF-057

Simple, but efficient. Series 4500 unit with overtable divider shelf, adjustable to any height along the vertical double standard uprights.

Int'l Shipping Area | MF-058

Mobile 4500 Series with 36"Dx84"L specified with a spacious undertable shelf, 2 overtable dividers shelves on double standard uprights. Comes with powerstrip and storage drawer.

Packing Table | MF-059

Series 4500 table with several optional accessories; undertable divider shelf, storage drawer, articulating arm, plastic bin mounting rails, overtable adj shelf on double standard uprights.

Repack Area | MF-060

Atypical packing solution, perfect for a repack area. Series 6600 with sliding doors and adjustable inner shelf. Optional overhead accessories may be added any time in the future.

Packing & Shipping Area | MF-061

Free-standing Series 4500 Work Tables provide simple re-configuration at a moments notice. Each table is equipped with accessories to suit a particular function. First unit (left): keyboard tray; Second unit: drawer case and 20-amp wiretrough. The corner unit ties the two together. Next unit features overtable divider shelf and smaller spool holder, while the last, far right unit has 2 spool holders, with undertable divider shelf.

Shipping Table | MF-062

Simple, but efficient. Series 4500 unit with overtable divider shelf, adjustable to any height along the vertical double standard uprights.

Scanning Center | MF-063

Mobile 4500 Series with 36"Dx84"L specified with a spacious undertable shelf, 2 overtable dividers shelves on double standard uprights. Comes with powerstrip and storage drawer.

Label Station | MF-064

Series 4500 with 2 full-width undertable shelves offer generous storage. Top features post-formed front edge, with 2 overtable divider shelves, powerstrip and drawer case.

Repack Bench | MF-065

Series 7000 components designed the base of this unit. 2 single cabinets, one double cabinet, along with filler piece make up the 30"x72"Lx36H. Overtable accessories include powerstrip, pegboard, divider shelf on double standard uprights.

Packaging Row | MF-066

A row of in-line series 1000 table servers as a packaging area. Each unit is 36"Dx72"L for a total row length of 216". Undertable shelves increase storage capacity, while smaller items are stored in the small drawers at each table. 15-amp powerstrips supply needed power. For worker comfort, tops feature post-formed front edges.
