No matter what your organization does... There's a perfect Workplace solution.

*kitting, packing, shipping
& receiving*

electronics assembly

*new product development
& engineering*

storage solutions

testing & instrumentation

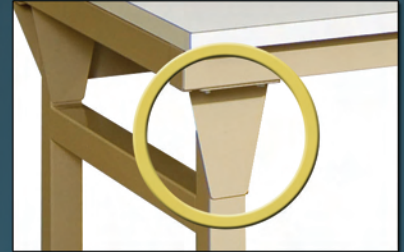

task mobility

Workplace benches, tables, & workstations are...

Durable.

Solid welded tubeframe construction, heavy duty bracing, and worksurfaces that take abuse and ensure every Workplace product outlasts even the toughest applications.

Ergonomic.

Every bench and table comes with height adjustable legs. Our *One-Touch* motorized tables provide infinitely adjustable height with a 500-pound lift capacity.

Mobile.

Your constantly changing task requirements demand the easy reconfigurability provided by wheels. Choose heavy duty casters when you order or retrofit your existing stationary benches and tables.

Modular.

Workplace benches, tables and workstations are designed from the ground up to work together. Call Workplace and we'll work with you to put together exactly the modules you need to optimize your workspace.

Flexible.

Choose from a wide range of accessories to maximize productivity: lighting, footrests, tool holders, shelving, power, and computer peripherals. Just to name a few.

Workplace delivers superior solutions.

The conversation begins with an experienced Design Specialist.

Workplace Design Specialists have solved just about any task requirement you can imagine. Unlike some other suppliers, we don't pre-build benches. Rather, we work one-on-one to help you define your exact need and then design the perfect bench, table or workstation and ship it at a competitive price and delivery.

Enhance functionality with add-on accessories.

A Workplace bench, table, or workstation solution is a lot more than just a horizontal surface. Choose from a variety of colors and table surfaces, as well as a wide range of accessories such as racks, bins, tool holders and task lighting.

Complete customer support after it's on your floor.

Your relationship with Workplace doesn't end when we ship your workbench or table. It's just beginning: you'll receive a durable product with a limited lifetime warranty. Questions? Problems? Just call your Design Specialist.

Designed and built with pride in New Hampshire.

The Workplace team knows their stuff and their pride of workmanship and quality is readily apparent in every item that goes out the door.

Experience matters.

Workplace Modular Systems has been designing and manufacturing workspace solutions for more than 60 years.

We go the extra mile to build and maintain a personal connection that, like our products, is built on reliability and respect.

Start with a conversation and end up with a solution.
