

Workbench Pre-Assembler

Full-Time Position Monday-Friday 7-3:30pm \$15/hour

Position Description: This position requires the employee to fit and attach pieces of various industrial furniture products together, working within a factory environment. Using tools provided by the company, the employee assembles components of industrial cabinets together and depending on the specific piece, this process can include attaching slides, bases, levelers and tops. After assembly, the cabinets are packaged using the provided packing materials. If willing to learn, detail oriented, and a hard worker, no experience is required.

- Pay rate is based on experience and applicant must have the ability to pass pre-employment drug screen and background check.
- Job description is not intended to be all inclusive. Duties, responsibilities and activities may change at any time with or without notice.
- Opportunity for advancement based on employee desire

Job Requirements:

- Must be self-motivated
- Ability to lift 50 pounds frequently
- Must be able to accomplish daily and weekly goals while performing job safely, accurately and efficiently
- Strong work ethic with great attendance and punctuality are a must
- Adheres to company safety policies
